# Future

Minimum and Maximum  
Programme  
of Eagles Cross Borders project

# Minimum program

Tired of project work, sometimes tough...

Then good vacation is obligatory...

# Maximum program

- To start with some new project
- To install base for non project based work
- To involve some more countries
- To continue with knowledge,skills and investments obtained - there is not only few to use!

Common work gave all of us new skills and knowledge

To save power and have a  
pleasure to fill our plans

Equipment obtained within  
ESTLAT Eagles project gives  
possibility to go on with the  
activities initiated in frames  
of the project

# Maximum

- To start with some new project
- To install base for non project based work
- To involve some more countries
- To continue with knowledge and skills obtained - there is not only few to use!
- Maybe to join again with ESTLAT programme...

But probably our Latvian colleagues will think seriously before they agree the partnership with flegmatic Estonians involved...

We wish the bright future for eagles  
without of orders!

They could serve you some exciting  
moments ...
