Eagles winter feeder webcam

In original presentation internal links to the video clips were used, but those are not available here, sorry!

Some are replaced with YouTube uploads, some with forum links...

Installing the camera in autumn 2011, Joosep and Tiit

Eagles winter feeder webcam

- **Nice weather, eagles song**
- **Laplander**

White-tailed Eagle breeding in Hiiumaa island, the nesting place was visited during ringing time together with foresters participating in ESTLAT seminar. Rings show the birth place 310 km SE in year 1998 and ringed by Urmas...

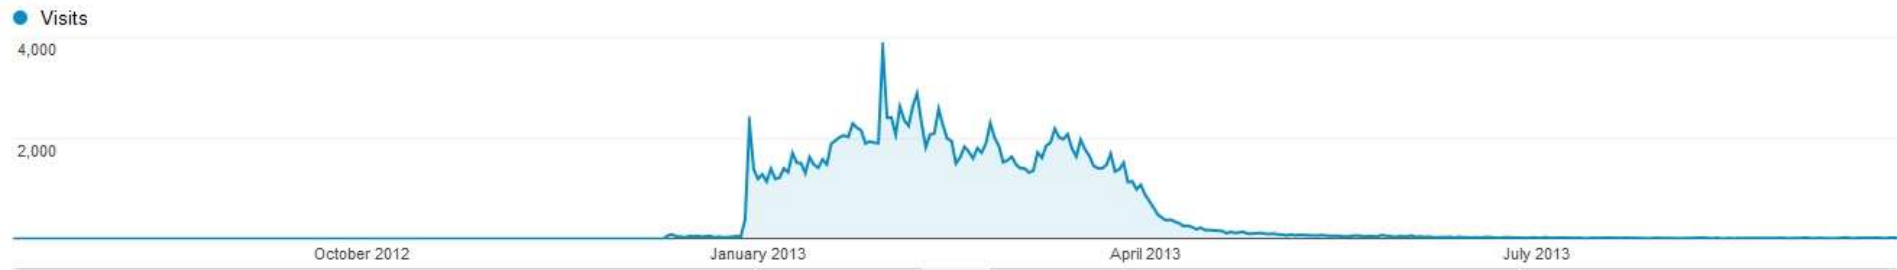

Renno ringed that time two chicks in nest up on tree.
Smaller one (E012) was observed in feeder webcam next winter.

...while foresters discussed about protection measures on ground

Eagles winter feeder webcam

- **Nice weather, eagles song**
- **Laplander**
- **Guy from Hiiumaa**
- **Eagle from Sweden**
- **Eagle tree and wood collection**
- **Rivals**
- **Lithuanian eagle in snow fall**
- **News of winter feeder webcam**

White-tailed Eagle webcam LV

Batteries weigh ca 50kg every one

Solar panels need to be placed as high as possible to provide enough energy for system

There up on tree is a hudge nest and Janis standing on it, ca 100m of panels installed

Checking if the system is working properly

After installing of camera the place stays as natural as possible

White-tailed Eagle webcam LV

- **Only real nest life 2012**
- **Second webcam 2013**
- **More eagles there**

White-tailed Eagle webcam EE

Renno at camera nest control during monitoring of WtE

[link](#)

White-tailed Eagle webcam EE

- Installing of system
- First touch to nest
- Base for future
- Linda and three eggs
- New born chick
- 40 days later
- Peaceful life
